

 **LifeRoom**

Your life. Your room.

LifeRoom
BY FOUR SEASONS

Manufactured With High-Quality Structural Aluminum

LifeRoom is made to exacting standards using the highest quality structural aluminum available today. Structural aluminum is lightweight in nature, but allows for **LifeRoom's** unique design, not attainable by total steel construction, yet strong enough to withstand all the elements.

ICC-ES Evaluated And Certified

ICC-ES is the United State's leading evaluation service for innovative building materials, components and systems.

ICC-ES has evaluated and certified that the materials used to construct the LifeRoom have met the requirements that are necessary for building codes and technical standards.

Even Our Warranty Is Unique

You can rest assured that your **LifeRoom** will be there for you to enjoy for years to come. We give you a full 10 year warranty on the structure and screens. We also cover the screen motors and fans for a full 2 years.

You can rest assured that your LifeRoom is backed by the strength of a leading international manufacturer.

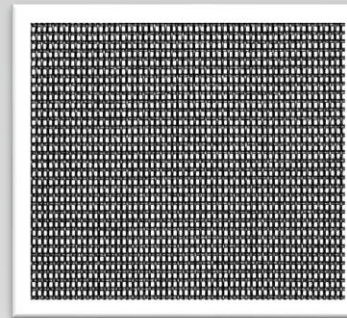

With **LifeRoom**'s retractable screens, the party goes on, and on, and on!

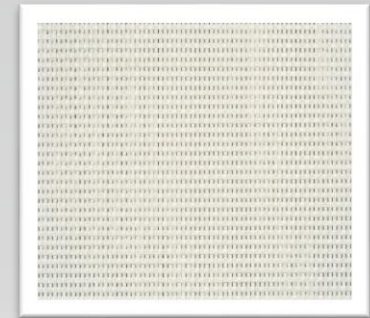

Simply touch a button to instantly lower **LifeRoom**'s screens and even stormy weather can't rain on your party.

Mosquitoes and other flying insects are the bane of any backyard party, just as things get going, you're seeking cover.

- At the touch of a button, you can lower the automated screens and relax without being bugged.
- We all love nature, but not all of it, all of the time!
 - Screens that can eliminate up to 95% of UV rays.
 - Our Pollen Guard screens can block up to 99% of all pollen and microscopic airborne irritants.

Smooth Glide Motorized Screens

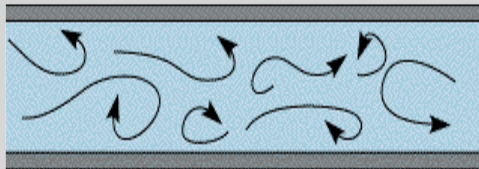

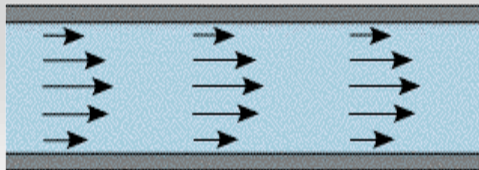

LifeRoom's Soft Breeze Technology begins with its unique in-line fan system that keeps the air moving evenly and gently to keep you cooler on the warmest of days.

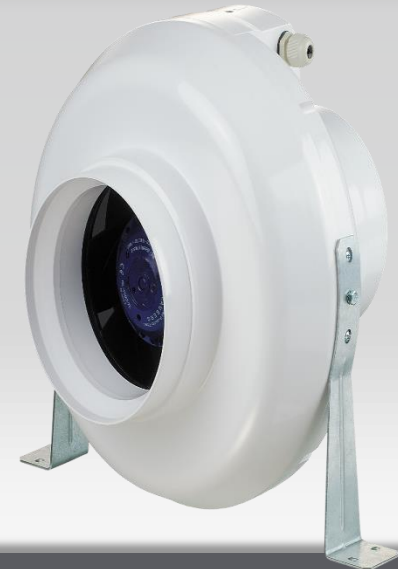

The fan system delivers laminar air flow which directs the air from the front of the room right to the back without interruption. Which means that wherever you stand in the **LifeRoom**, you'll be sure to get your "share of the air!"

Laminar

One added benefit is that air movement hinders the ability of flying pests, just one more way that the **LifeRoom** protects you as you enjoy your outdoors.

Soft Breeze Technology

LifeRoom takes being cool to a whole new level with its unique innovative Cool Mist Climate System. Imagine a cool mist so ultra-fine that it actually disappears as it cools the air around you.

When combined with the Soft-Breeze technology, this system can reduce the temperature in the **LifeRoom** by up to 40 degrees even in the most humid of climates.

LifeRoom
BY FOUR SEASONS

Because blue recedes optically and is psychologically associated with air, lighter blues have a calming effect and can make a room appear more spacious

Positive Meanings of Blue:

- Calmness, Serenity
- Cleanliness, Fresh Air
- Calming, Contemplative
- Trust, Security
- Technology, Futurism

LifeRoom's sophisticated LED lighting turns your backyard into your own private VIP room.

Even when the sun goes down, **LifeRoom** knows just how to keep the party going. Soft blue LED lighting brings a magical atmosphere to any night. Relax with your favorite beverage as **LifeRoom** takes the stress out of a long, hard day.

Superlative performance, class-leading controllability and durable materials, The **LifeRoom** has the right solution for those chilly nights when you want to get the most from your outdoor living space.

Utilizing the principle of infrared radiation to add welcome warmth to your new **LifeRoom**, compared to propane or natural gas, electric infrared heat offers superior performance and controllability with no fumes, odors or noise.

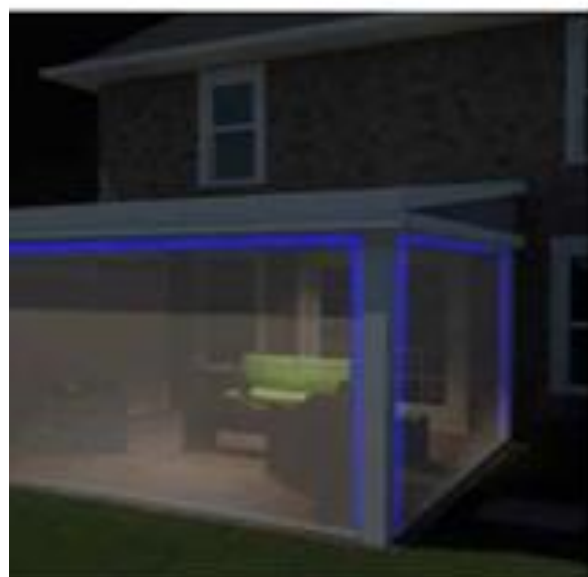

Modern design and the use of stylish materials such as bronze anodized aluminum and brushed stainless steel create a crisp yet functional presentation.

Made of cold-rolled stainless steel the durability of these single element units is legendary, and will provide many years of comfort.

Custom controls will increase the convenience, functionality and energy efficiency of your heater. Partnering with a UL 508 Listed manufacturer, so you know all of the controls have the safety and reliability that is required in today's demanding environments.

LifeRoom has partnered with Infratech who have been the leaders in the infrared outdoor heater market for over 5 decades.
